7Summits

Senior Front-End Developer
Front-End Developer

August 2019 - Current
July 2018 - August 2019

Developed Salesforce Communities for multiple clients.

- Implemented Salesforce solutions to meet business requirements for Fortune 500 companies utilizing in-house lightning bolts and components coupled with custom development.
- Assisted in the onboarding of new developers with little-to-no salesforce experience.
- Managed off-shore front-end developers including conducting code reviews and mentoring.

Canpango

Front-End Developer

July 2017 - July 2018

Lead the front-end engineering effort of a ReactJS account management application

- Salesforce integration with the account management app eliminated approximately \$6,000 per month in license fees upon its January 2018 launch.
- Conducted code reviews and mentored a junior level developer on the team.
- Developed Salesforce lightning components for Fortune 500 companies.

International Foundation of Employee Benefit Plans

Web Designer

February 2017 - July 2017

Developed a shared CSS library to maintain consistency across site forms.

- Redesigned multiple pages while maintaining a seamless integration with the existing site.

Liturgical Publications

Web Developer

October 2015 - February 2017

Web Designer

August 2013 - October 2015

Developed new features and provided support for LPI's suite of products.

- Re-engineered the theme development process and file structure for weconnect.com which reduced the necessary lines of code per theme from thousands to hundreds and cut new theme development time by 75%.
- Managed the development team's support queue. Patched and deployed bug fixes for existing applications. Delegated other tasks as needed.

PowerSports Network

Web Designer

October 2012 - August 2013

Website Data Analyst

July 2010 - September 2012
